# UNDERWATER LIGHTING

Monarch Pool Systems exclusive range of underwater lighting equipment is the best proven way to enhance the enjoyment of all types of swimming pools and water features such as fountains and ponds. Stroud underwater lighting can transform your swimming pool or fountain into a magnificent work of art and night time feature.

## COMPACT SERIES

Designed to suit all types of domestic swimming pools including above ground, concrete, prefab, fibreglass, vinyl liner and modular construction.

### ADVANTAGES:

- Low voltage for safety
- Easy to install
- Economical to operate with lamp offering superior working life when compared to other conventional units.
- Crystal Clear High Impact Lense
- Choice of coloured clip-on lenses.
- Exclusive DC power system available

The Compact series offers superior performance with outstanding light distribution. This light will add a touch of class to your swimming pool or fountain.

## SM35 SERIES

The SM35 will operate in or out of the water, making it the ideal light for outdoor use. Stunning chrome finish for feature lighting.

### ADVANTAGES:

- Low voltage for safety
- Easy to install
- Economical to operate
- Nickel and chrome plated parts for longevity
- Available with Niche or adjustable bracket for spotlight effects
- Choice of 50W, 100W or 150W

The SM35 is a very attractive and versatile fitting suitable for a wide range of uses and will complement any outdoor feature

## SM300 COMMERCIAL

The SM300 is a niche style underwater light designed to suit all commercial applications providing exceptional illumination.

### ADVANTAGES:

- Low voltage for safety
- Easy to install
- Constructed utilising robust ABS plastic
- Large lens providing exceptional illumination

The SM300 provides greater safety in the swimming pool where poor visibility exists and transforms the pool into an attractive entertaining area.
